

Electronics and Instrumentation

Name _____ ENGR-4300 Fall 1999 Section _____

**Extra Credit #2
Job Descriptions**

Search the world wide web to find 5 job descriptions that satisfy the following requirements:

1. You must qualify for these jobs, at least someday. That is, the job must require at least a BS in Mechanical Engineering, Aeronautical Engineering, etc. Please indicate your major here: _____. When will you graduate? _____
What graduate degrees do you intend to pursue? _____
2. At least two job descriptions must reflect your personal professional goals. That is, if offered this job, you would definitely take it.
3. At least three job descriptions must at least strongly suggest a background and interest in material we have covered in this course.

Create a hardcopy list of these job descriptions. You may summarize if you wish. Indicate where you found each job listing (give the url).

Hint: You can use an online job bank, but you will find more complete information at the websites for specific companies.
